Experience

QA/QC INSPECTOR | 11/2024 - Current
D. Edward - Paint, PA

- Led QA initiatives across multiple sites, developing and enforcing robust quality standards.
- Collaborated with production teams to resolve non-conformances and ensure compliance.
- Implemented continuous improvements based on root-cause analysis of non-conforming products.
- Maintained accurate records of inspection results, test data, and calibration activities.
- Documented inspection processes to enhance operational efficiency and reduce downtime.

CLIENT SERVICES ADMINISTRATOR/HELP DESK SPECIALIST | 01/2017 - 12/2020
WSP/FEMA

- Supported over 2,000 users with Windows systems, VPN setup, and networking issues.
- Installed operating systems and software applications according to established procedures.
- Provided technical assistance for incoming queries on computer systems, software, and hardware.
- Conducted training sessions on software applications and usage guidelines.

Education and Training

CareerFoundry - Full Stack Web Development
06/2024

Hampshire High School - High School Diploma
05/2013

Projects

Ceremonial Artifex Scheduler

React, Django, PostgreSQL, Material UI

Built a full-stack appointment and loyalty app for a ceremonial tea business. Included secure user authentication, a calendar-based booking system, an admin dashboard to manage appointments and client profiles, and automated status-triggered email notifications. Future roadmap includes Stripe integration, OAuth, and AWS deployment.

Imaginarium Tattoo Scheduler

React, Django, PostgreSQL, Material UI

Developed an internal scheduling and billing dashboard for a tattoo shop. Enabled role-based access, appointment approvals, price quoting, and revenue reporting. Designed a field-by-field change tracking view and laid groundwork for image uploads and downloadable reports.

Brett Nelson Portfolio Site

React, Styled-Components, React Router

Delivered a branded, responsive one-page website for an insurance consultant. Included parallax visuals, reusable components with dark mode support, and lead-generation CTAs, all optimized for mobile and desktop.
